**Y Flexible Channel Mounting Clip Set**  
 20 piece set. Does 1 car. 1071045 10.50

**Clip Installation Tip**

The easiest method to locate these clips is to first snap them into the slotted holes in the door recess. Next, take your formed channel and gradually push it into the door recess, right onto the barbs that protrude from the mounting clips. Push the channel into place with a small narrow block of wood, so that the barbs puncture the channel. Use care so that you do not puncture your finger. Lastly, bend the barbs over to fasten them to the channel.

**Z Regulator Roller & Rivet Set**

If these rollers have flat spots, are cracked or are missing, you cannot raise or lower the glass with ease. Twelve piece set includes 6 nylon rollers for the glass guides & 6 special mounting rivets. Does 1 car. 1079754 12.00
